

Are you one of the grownups? Join the **Peninsula Seniors**

810 Silver Spur Road, Rolling Hills Estates, CA 90274

Did you know ... There is a place that's just for you. You can go there and have fun with other grownups. You can play games like crazy bridge or bingo or exercise with people with real bodies. Maybe you would enjoy starting your own Family History with the writers group, or enjoy taking day trips to discount shopping malls without the hassle of driving the freeways and finding parking. There are longer trips for you and special friends or family, and language lessons to make them even more fun — and that's not all — You will find people there to help you with tax preparation, legal matters, and even a podiatrist. Where is this place? It is your local Peninsula Senior Center, where grownups 18 and over are welcome, and you can take younger family members along on trips. This is not your usual tax-supported storefront with a few moldy magazines and a rump-sprung sofa.

This is a grownup place!

Drop by and see what's happening! Supported by memberships that cost less than a cup of coffee per week, our dedicated office staff and volunteers are finding out what members want and organizing it for them. Come see for yourself. Find out about the savings on trips like the *Reagan Library/Air Force One/luncheon in the hanger* trip in May or the Fourth of July *jaunt to the Hollywood Bowl* that you can share with family and friends. Join today and be as active as you want to be, reading the monthly bulletin for special trips and events (with savings to members of course) or looking for lectures to bring you up-to-date on subjects as diverse as Community Affairs, Aging, or the Exploration of Space. You can get *Dial-a-Ride* tickets here and find out about senior discounts from Peninsula merchants.

Friendships are formed and groups meld together to volunteer services or to meet at the center for favorite activities. *Do you have a passion and no one to share it with?*

Join the Grownups at our center and find people who are as "with it" as you. Share your own caregiver concerns on Friday mornings with our trained social worker. Take a couple of "55 Alive" driving classes and save on your auto insurance. Watch the latest movie on our giant TV, while munching on fresh popcorn.

We are the grownups.
