Health and Fitness Requirements

Our expeditions are open to anyone in good health and good shape. You do not have to be an athlete, but our programs require a reasonable physical effort. If you have medical problems, you must inform us at the time you request a reservation. If you are not capable of navigating stairs and/or walking the distances necessary to participate in the activities without help, you must have a caregiver capable of assisting you during the entire trip. Our escorts will not be able to give you the level of individual care since their responsibilities are to the entire group.

We reserve the right to deny participation in the Tour/Trip at any time up to and including the time of departure, if in the sole judgment of the Peninsula Seniors Escort, the participant is deemed unable to manage the walking or navigating the stairs required on the Tour/Trip and/or if the participant's continued presence will jeopardize the individual involved or the group unless a competent caregiver accompanies the traveler.

Since our trip cost is dependent on the number of participants, there will be no refunds for those denied participation. Please, seriously consider your ability and caregiver needs before you make a reservation to avoid being denied participation.
