

## SPRING 2021 COURSE SCHEDULE

Marymount California University offers the members of Peninsula Seniors the opportunity to attend Marymount courses, tuition-free, for the spring 2021 semester. This partnership by the two Palos Verdes area non-profit organizations will provide up to 99 members of Peninsula Seniors the ability to audit courses at Marymount California University's campus in Rancho Palos Verdes.

**NOTE: All Spring 2021 courses will be offered on-line only. The University campus will not be open for courses or students. Students who are auditing a class are able to attend class sessions and participate in class discussion via Zoom, as well as access course materials online via MyMarymount.**

Audit students do not take exams and their work is not graded by the class professor. A transcript is not generated so the coursework is not transferable for college credit. **To fully benefit from the experience, students must have the ability to use a computer to access course information.**

### **Enrollment**

There is no audit fee. Lab fees may be required in certain courses (e.g. art, science). Enrollment is on a space-available basis only. Students are limited to enrollment in only one course per semester. All students must be members of Peninsula Seniors. Registration for classes occurs by sending your completed application via email to [seniors@pvseniors.org](mailto:seniors@pvseniors.org).

Preliminary notification of enrollment will be e-mailed to applicant by Friday, January 8, 2021. Classes begin January 11, 2021. Students must attend the first day of class to confirm their intent to enroll. Enrollment will be confirmed after January 15, 2021.

### **Academic Policies**

Students are provided the opportunity to audit a course on a space-available basis as determined by Academic Affairs, when the instructor is agreeable to auditing students in the classroom and the student agrees to adhere to the highest standards of conduct. The University expects the highest standards of integrity from its students in the performance of academic assignments. Moreover, the University requires the cooperation of its students in creating a university-wide environment that is conducive to everyone's learning. Students are expected to follow the regulations of conduct set forth in "The Anchor", the Marymount California University handbook and the policies and procedures established in the Marymount California University Catalog.
